Investment Managers	Means Portfolio Managers or PM of the Funds
LOIM	Lombard Odier Investment Managers

Purpose

This memo describes the restrictions applicable to LO Funds – Golden Age in the context of the requirements of the Towards Sustainability label certification.

The Towards Sustainability label is based on specific quantitative and qualitative rules referred to as Quality Standards. It requires exclusion of the financing of a limited number of practices that are widely regarded as unsustainable. The Quality Standards do not stipulate how the requirements should be fulfilled in practice: this is left to the expertise of the portfolio manager. The standard provides a mix of exclusion, impact, engagement, transparency, and accountability. The balance of these elements and the specific requirements associated, will evolve, and be adapted over time to reflect the evolving expectations of investors and the needs of society, and the legislative translation of these needs and expectations. As such, the Quality Standards are not fixed and shall be evaluated regularly in a multi-stakeholder context.

Organisation and Responsibilities

1.1. Responsibilities

Portfolio Managers implement investment decisions in accordance with the sustainability policies defined by LOIM. This memo provides an excerpt of the sustainability principles implemented by LOIM Investment teams and monitored by LOIM Risk.

This memo can be amended, adjusted and/or withdrawn at any time and with immediate notice. This memo does not propose to amend and/or restrict the investment guidelines as described in the relevant prospectus of the fund or sub-fund in scope.

Restrictions Guidelines

1.2. Exclusions

- **Controversial weapons:** Please refer to LOIM exclusion policy for further information. For nuclear weapons, companies in countries that did not sign the non-proliferation treaty (1968 - 1970) are also excluded.
- **Essential food commodities:** Please refer to LOIM exclusion policy for further information.
- **Oppressive regimes:** Please refer to LOIM Financial Sanctions & Embargoes Policy for further information.

1.3. Sector restrictions

Unless otherwise validated through the LOIM override process, an Investment Manager shall apply the follow restrictions:

Tobacco:

- Companies deriving more than 5% (included) of their revenues from either production of tobacco products or retailing of tobacco products/services shall be excluded.

Conventional weapons:

- Firearms: companies deriving more than 5% (included) of their revenues from firearms all categories (military/civilian customers, manufacturers/retail/distribution, key components manufacturers) shall be excluded.
- Military contracting: companies deriving more than 5% (included) of their revenues from manufacturing military weapon systems and/or integral, tailor-made components or these weapons or providing tailor-made products and/or services that support military weapons shall be excluded.

Coal:

- Companies operating in thermal coal mining and/or thermal coal power generation shall meet all the following criteria:
 - The company's absolute production of or capacity for thermal coal-related products/services shall not be increasing.
 - The company shall meet at least one of the following criteria:
 - Have a SBTi ("Science Based Targets initiative") target set at well-below 2°C or 1.5°C, or have a SBTi 'Business Ambition for 1.5°C' commitment
 - Derive less than 5% of its revenues from thermal coal mining and/or thermal coal power generation
 - Have less than 10% of CapEx dedicated to thermal coal mining and/or thermal coal power generation and not with the objective of increasing revenue
 - Have more than 50% of CapEx dedicated to contributing activities

Unconventional oil & gas:

- Companies with revenues derived from activities related to unconventional oil & gas, namely tar sands, shale gas and oil and arctic oil & gas exploration, shall meet the following criteria:
 - The company's absolute production of or capacity for unconventional oil and gas-related products/services shall not be increasing.
 - The company shall meet at least one of the following criteria:
 - Have a SBTi target set at well-below 2°C or 1.5°C, or have a SBTi 'Business Ambition for 1.5°C' commitment
 - Derive less than 5% of its revenues from unconventional oil and gas-related activities
 - Have more than 50% of CapEx dedicated to contributing activities

Conventional oil & gas:

- Companies with revenues derived from activities related to exploration, extraction, refining and transportation of oil and gas, or providing dedicated equipment or services shall meet one of the following criteria:
 - Have a SBTi target set at well-below 2°C or 1.5°C, or have a SBTi 'Business Ambition for 1.5°C' commitment
 - Derive less than 5% of its revenues from oil and gas-related activities
 - Have less than 15% of CapEx dedicated to oil and gas-related activities and not with the objective of increasing revenue
 - Have more than 15% of CapEx dedicated to contributing activities

Power generation:

- Companies with revenues derived from activities related to the generation of power/heat from non-renewable energy sources, or providing dedicated equipment or services shall meet the following criteria:
 - The company's absolute production of or capacity for non-renewable energy-related products/services shall not be structurally increasing.
 - The company's absolute production of or capacity for contributing products/services shall be increasing, subject to data availability.
 - The company shall meet at least one of the following criteria:
 - Have a SBTi target set at well-below 2°C or 1.5°C, or have a SBTi 'Business Ambition for 1.5°C' commitment
 - Derive more than 50% of its revenues from contributing activities
 - Have more than 50% of CapEx dedicated to contributing activities
 - Have a carbon intensity lower than the annual threshold shown below

	2019	2020	2021	2022	2023	2024	2025
Max. gCO ₂ /kWh	429	408	393	374	354	335	315

Phase-out margin for conventional oil & gas and/or power generation

- The phase-out margin applicable only to companies involved in **conventional oil & gas** and/or **power generation** is established to capture companies that are transitioning towards Paris agreements targets. Notwithstanding the above-described restrictions, companies involved in **conventional oil & gas** and/or **power generation** are deemed eligible for investment if they meet the following criteria
 - The company must not be increasing the use of non-renewable energy-related products/services.
 - The total portfolio phase-out margin exposure will be 5%. This will decrease by 1% each year, starting 1 January 2023.
 - The company must be an 'ESG leader' and be within the top 25% when rated against its peers. The company must also have a strategy to reduce the adverse impact of their activities, and to increase their contributing activities.

Other key ESG issues

1.4. Biodiversity, Water utilisation, waste management, taxation, gender & diversity

As described in these guidelines, Lombard Odier ESG/CAR Industrial Materiality Rating Methodology encompasses relevant indicators covering not only greenhouse gas emissions and energy performance, but also biodiversity, water utilisation, waste management, social and employee matters, human rights and anti-corruption and bribery. Considerations and valuation of these key ESG issues are embedded in the ESG score and therefore available to the Investment Manager when a decision need to be taken.

Please see below a non-exhaustive list of indicators considered in the methodology:

- Water utilisation: Water intensity, Water Risk Management, Water Management Programmes
- Taxation: Tax Disclosure
- Biodiversity: Environmental Policy, Environmental Management System, Natural Resource Use-Direct Impact Ratio (%), CDP forest data, Biodiversity Programmes, Land Use and Biodiversity, Forest Certifications, Animal Welfare Policy
- Waste management: Mineral Waste Management, Radioactive Waste Management, Emissions Effluents and Waste, Noise Management
- Gender & diversity: Discrimination Policy, Diversity Programmes, Freedom of Association Policy, Board Structure, Board/Management Quality & Integrity, Remuneration & Gender Pay Gap
